

System Architecture & Design Document

1. Generalities:

- A. When the User launches the app, they will be on the homepage. (11-Feb-2026)
- B. When the User minimizes the app and then re-opens the app without closing the app, they will be on the last screen and/or interface they were on. (11-Feb-2026)
- C. The app will display its name on the top bar. (11-Feb-2026)
- D. The app will be locked to portrait mode, unless explicitly noted otherwise. (11-Feb-2026)
- E. There will be a “hamburger” button at the top left of each non-pop-up screen that opens a menu displaying a navigation panel. (11-Feb-2026)

2. Homepage:

- A. The “Homepage” will display a line graph showing User scores over the last 7 days. (11-Feb-2026)
 - a. Clicking on the graph will take the user to the “Extended Graph” screen. (11-Feb-2026)
- B. There will be a circular button with a plus sign centered in it on the “Homepage”, hereafter referred to as the plus button. (11-Feb-2026)
 - a. The plus button will be centered horizontally. (11-Feb-2026)
 - b. The plus button will be at the bottom of the homepage. (11-Feb-2026)
 - c. When the User clicks on the plus button on the homepage, they will be taken to the “Record Habit” interface. (11-Feb-2026)
- C. The “Homepage” will display the User’s current daily score. (11-Feb-2026)
- D. The “Homepage” will display a list of unrecorded habits. (pending)
 - a. The list will include the 5 habits that haven’t been recorded since their deadline. (pending)
 - i. Deadlines will be determined by User selection. (pending)
 - ii. The list will be ordered in chronological order (least recently recorded on top, most recently recorded on bottom). (pending)

3. Extended Graph screen:

- A. The “Extended Graph” screen will automatically rotate and lock to landscape mode. (11-Feb-2026)
- B. The “Extended Graph” screen will display a line graph showing User scores over the last 30 days. (11-Feb-2026)
- C. There will be a back button on the “Extended Graph” screen, which will take Users back to the “Homepage”. (11-Feb-2026)

System Architecture & Design Document

4. Record Habit interface:

- A. The “Record Habit” interface will be a pop-up that partially covers the “Homepage” screen. (11-Feb-2026)
- B. The “Record Habit” interface will have a prompt across the top of the interface. (11-Feb-2026)
 - a. The prompt will display “Record A Habit”. (11-Feb-2026)
- C. The “Record Habit” interface will allow the User to record the habits they have completed. (11-Feb-2026)
 - a. The “Record Habit” interface will allow the User to select a date. (11-Feb-2026)
 - I. The date will default to the current day. (11-Feb-2026)
 - II. Users will be able to set the date using a date field containing numbers and “/”. (11-Feb-2026)
 - III. Users will be able to select the date from a pop-up calendar. (11-Feb-2026)
 - IV. There will be no option to record habits for future days. (11-Feb-2026)
 - b. The “Record Habit” interface will allow for selecting a time for recording their habit. (11-Feb-2026)
 - I. Time will default to the current time as of when the plus button was pressed. (11-Feb-2026)
 - c. The interface will prompt the User for the completed habit. (11-Feb-2026)
 - I. The User will select a habit from a drop down list of all current habits. (11-Feb-2026)
- D. The interface will have a “save” button. (11-Feb-2026)
 - a. The “save” button will save the habit to the Habit History. (11-Feb-2026)
 - b. The “save” button will increment or decrement the daily score according to its point value. (11-Feb-2026)
 - c. The “save” button will close the “Record Habit” interface, and return the User to the “Homepage”. (11-Feb-2026)
- E. The “Record Habit” interface will have a “Cancel” button. (11-Feb-2026)
 - a. The “Cancel” button will close the interface without saving the current habit. (11-Feb-2026)
 - b. The “Cancel” button will return the User to the “Homepage”. (11-Feb-2026)

System Architecture & Design Document

- F. When the User clicks outside the bounds of the “Record Habit” interface, the interface will close as though the “Cancel” button had been pressed. (11-Feb-2026)
- 5. **Navigation Panel:**
 - A. The “Navigation Panel” is a pop-up (ex: drawer) that partially covers the current screen. (11-Feb-2026)
 - B. The “Navigation Panel” will include the following options: Home, Manage Habits, Habit History, and Settings. (11-Feb-2026)
 - a. The “Home” option will take the User to the “Homepage”. (11-Feb-2026)
 - b. The “Manage Habits” option will take Users to the “Manage Habits” screen. (11-Feb-2026)
 - c. The “Habit History” option will take Users to the “Habit History” screen. (11-Feb-2026)
 - d. The “Settings” option will take Users to the “Settings” screen. (11-Feb-2026)
- 6. **Manage Habits screen:**
 - A. The “Manage Habits” screen will display the text “Manage Habits” at the top of the screen, but below the top bar. (11-Feb-2026)
 - B. The “Manage Habits” screen will display all current habits. (11-Feb-2026)
 - a. “Current habits” are defined as non-deleted habits. (11-Feb-2026)
 - C. The “Manage Habits” screen will include the ability to add new habits. (11-Feb-2026)
 - a. There will be a button for adding new habits at the bottom center of the screen. (pending)
 - b. This button will bring up the “Add Habit” interface. (11-Feb-2026)
 - D. The “Manage Habits” screen will include the ability to edit existing habits. (11-Feb-2026)
 - a. Each habit will have an “Edit” button attached to its display. (11-Feb-2026)
 - I. The “Edit” button will bring up the “Edit Habit” interface. (11-Feb-2026)
 - E. The “Manage Habits” screen will include the ability to delete existing habits. (11-Feb-2026)
 - a. Each habit will have a “Delete” button attached to its display. (11-Feb-2026)
 - I. This button will delete the associated habit. (11-Feb-2026)

System Architecture & Design Document

- F. When adding or editing a habit, the User will be able to assign a score to the habit. (11-Feb-2026)
 - a. The score will range from |1| to |5|. (11-Feb-2026)
 - b. The score will be positive for habits the User wants to start, and negative for habits the User wants to break. (11-Feb-2026)
- 7. Add Habit interface, general:**
 - A. The “Add Habit” interface will be a pop-up that partially covers the “Manage Habits” screen. (11-Feb-2026)
 - B. When the User clicks outside the bounds of the interface, the interface will close as though the “Cancel” button for that display had been pressed. (11-Feb-2026)
- 8. Add Habit interface display 1:**
 - A. Display 1 will display the prompt “Add A New Habit” at the top of the interface. (11-Feb-2026)
 - B. Display 1 will additionally prompt the User to select whether they are creating a habit they wish to start or stop. (11-Feb-2026)
 - C. Display 1 will have a “Cancel” button. (11-Feb-2026)
 - a. The “Cancel” button will close the “Add Habit” interface without saving the new habit. (11-Feb-2026)
 - b. The “Cancel” button will return the User to the “Manage Habits” screen. (11-Feb-2026)
 - D. Display 1 will have a “Save” Button. (11-Feb-2026)
 - a. The “Save” button will save the User’s choice temporarily. (11-Feb-2026)
 - b. The “Save” button will advance the interface to “Add Habit” interface display 2. (11-Feb-2026)
- 9. Add Habit interface display 2:**
 - A. Display 2 will replace Display 1. (11-Feb-2026)
 - B. Display 2 will prompt the User for the name of the new habit. (11-Feb-2026)
 - C. Display 2 will provide a text field for the User to enter the habit’s name. (11-Feb-2026)
 - D. There will be a “Cancel” button. (11-Feb-2026)
 - a. The “Cancel” button will delete the saved data from display 1. (11-Feb-2026)
 - b. The “Cancel” button will close the “Add Habit” interface. (11-Feb-2026)

System Architecture & Design Document

- c. The “Cancel button will return the User to the “Manage Habits” screen. (11-Feb-2026)
- E. There will be a “Save” button. (11-Feb-2026)
 - a. The “Save” button will add the Habit’s name to the save data from display 1. (11-Feb-2026)
 - b. The “Save” button will advance the interface to “Add Habit” interface display 3. (11-Feb-2026)

10. Add Habit interface display 3:

- A. Display 3 will display the new habit’s name. (11-Feb-2026)
- B. Display 3 will prompt Users to select an importance rating for their new habit. (11-Feb-2026)
 - a. The User will be presented with a scale ranging from 1 to 5, with increments of 1. (11-Feb-2026)
- C. Below the scale, display 3 will provide an explanation for the numbers’ corresponding importances. (11-Feb-2026)
 - a. “1” is a habit the User wants to do every once in a while. (11-Feb-2026)
 - b. “2” is a habit the User wants to do some of the time. (11-Feb-2026)
 - c. “3” is a habit the User wants to do most of the time. (11-Feb-2026)
 - d. “4” is a habit the User wants to do almost all the time. (11-Feb-2026)
 - e. “5” is a habit of utmost importance to the User. (11-Feb-2026)
- D. Display 3 will have a “Cancel” button. (11-Feb-2026)
 - a. The “Cancel” button will delete the saved data from displays 1 & 2. (11-Feb-2026)
 - b. The “Cancel” button will close the “Add Habit” interface. (11-Feb-2026)
 - c. The “Cancel” button will return the User to the “Manage Habits” screen. (11-Feb-2026)
- E. Display 3 will have a “Save” button. (11-Feb-2026)
 - a. The “Save” button will create a new habit. (11-Feb-2026)
 - I. The new habit will have the name entered by the User on display 2. (11-Feb-2026)
 - II. The new habit will have a value equal to its importance (1 through 5) times (1 for habits the User wishes to start; or -1 for habits the User wishes to stop). (11-Feb-2026)
 - III. The “Save” button will close the “Add Habit” interface. (11-Feb-2026)

System Architecture & Design Document

- IV. The “Save” button will return the User to the “Manage Habits” screen. (11-Feb-2026)

11. Edit Habit interface:

- A. The “Edit Habit” interface will display the text “Edit Habit” at the top of the interface. (11-Feb-2026)
- B. The “Edit Habit” interface will be a pop-up that partially covers the “Manage Habits” screen. (11-Feb-2026)
- C. The “Edit Habit” interface will provide the User with the ability to change the importance of the habit. (11-Feb-2026)
 - a. The starting importance will default to the habit’s current importance. (11-Feb-2026)
 - b. Changing the habit’s importance will **not** change past days’ scores. (11-Feb-2026)
 - c. Changing the habit’s importance will only apply to future records. (11-Feb-2026)
- D. The “Edit Habit” interface will provide the User with the ability to change the habit’s name. (11-Feb-2026)
 - a. There will be a text field where the User can change the habit’s name. (11-Feb-2026)
 - I. This field will default to the habit’s current name. (11-Feb-2026)
- E. The “Edit Habit” interface will have a “Cancel” button. (11-Feb-2026)
 - a. The “Cancel” button will close the interface without making any changes. (11-Feb-2026)
 - b. The “Cancel” button will return the User to the “Manage Habits” screen. (11-Feb-2026)
- F. The “Edit Habit” interface will have a “Save” button. (11-Feb-2026)
 - a. The “Save” button will save the current habit name and importance. (11-Feb-2026)
 - b. The “Save” button will close the interface. (11-Feb-2026)
 - c. The “Save” button will return the User to the “Manage Habits” screen. (11-Feb-2026)
- G. When the User clicks outside of the bounds of the interface, the interface will close as though the “Cancel” button had been pressed. (11-Feb-2026)

12. Habit History screen

- A. The “Habit History” screen will display daily accomplished habits going back at least 30 days. (11-Feb-2026)

System Architecture & Design Document

- B. Displayed Habits will be displayed in reverse recorded order (most recent first; oldest last). (11-Feb-2026)
- C. Displayed habits will be grouped by day. (11-Feb-2026)
 - a. Each group will display the total score for that day. (11-Feb-2026)
 - b. Each group will display a breakdown of the score for that day. (11-Feb-2026)

13. Settings screen:

- A. The “Settings” screen will have the following options:
 - a. “Export Data” (11-Feb-2026)
 - I. Export “Habit History” logs to a CSV file, saved locally on the device. (11-Feb-2026)
 - II. “Export Data” will provide User feedback when it begins the exporting process. (11-Feb-2026)
 - III. “Export Data” will provide User feedback when it finishes exporting the data. (11-Feb-2026)
 - i. There will be a message for when exporting is successful. (11-Feb-2026)
 - ii. There will be a separate message for when exporting fails. (11-Feb-2026)
 - b. “Clear History” (11-Feb-2026)
 - I. The “Clear History” button will prompt the User to confirm their desire to clear their habit history with a pop-up. (11-Feb-2026)
 - i. If the User confirms, delete the entire Habit History, and (close the pop-up after the data deletion completes). (11-Feb-2026)
 - ii. If the User clicks “Cancel”, close the pop-up. (11-Feb-2026)
 - Make no change to the Habit History. (11-Feb-2026)
 - iii. When the User clicks outside of the bounds of the pop-up, don’t register the click. (11-Feb-2026)
 - c. “Notification Settings” (11-Feb-2026)
 - I. The “Notification Settings” option will open the “Notifications” interface. (11-Feb-2026)
 - d. “Dark Mode” (11-Feb-2026)
 - I. In line with the text “Dark Mode” will be an on/off slider. (11-Feb-2026)

System Architecture & Design Document

- i. When the slider is to the left, Dark Mode will be off. (11-Feb-2026)
 - ii. When the slider is to the right, Dark Mode will be on. (11-Feb-2026)
 - iii. The slider will present as different colors in its on and off positions. (11-Feb-2026)
- e. “Credits” (11-Feb-2026)
 - I. The “Credits” option will open a pop-up that partially covers the “Settings” screen. (11-Feb-2026)
 - i. The “Credits” will display the names of the team. (11-Feb-2026)
 - ii. The “Credits” will thank the User for using the app. (11-Feb-2026)

14. Notification interface:

- A. The “Notification” interface will be a pop-up that partially covers the “Settings” screen. (11-Feb-2026)
- B. The “Notification” interface will include the following options:
 - a. “Allow Daily Reminders” (11-Feb-2026)
 - I. In-line with this text will be an on/off toggle. (11-Feb-2026)
 - i. When the toggle is on, the app will send daily notifications at least once a day. (11-Feb-2026)
 - ii. When the toggle is off, the app will send no notifications. (11-Feb-2026)
 - b. There will be an option to go straight to the phone’s notification settings. (pending)
 - c. “Daily Reminder Frequency” (11-Feb-2026)
 - I. In-line with this text will be a dropdown list. (11-Feb-2026)
 - i. The dropdown will include “1”, “2”, “3”. (11-Feb-2026)
 - ii. The app will send 1/2/3 reminder(s) over the course of the day depending on the selected frequency. (11-Feb-2026)
 - d. “Daily Reminder Frequency” will be grayed out when “Allow Daily Reminders” is set to off. (11-Feb-2026)
- C. Notifications:
 - a. Notifications will be limited to the text “Reminder: Record Your Habits!” (11-Feb-2026)
